

SOIL NAILING | SHOTCRETE

MONTELCUCIA RESORT - PARADISE VALLEY, ARIZONA

High end spa retreats need to provide a lot of parking while preserving the surrounding landscape. To accomplish this, Schnabel designed and constructed an excavation support system to accommodate multi-levels of underground parking that maximized convenience for the owner and minimized the impact on the environment. Schnabel provided both temporary and permanent soil nail walls for the excavation and also managed the installation of the permanent shotcrete wall for the underground garage.

Owner: **Crown Realty & Development Company**
General Contractor: **VCC**
Design/Build Specialty Contractor:
Schnabel Geotechnical Design & Construction
